**12th -15th of October 2016, Bucharest and Campulung Muscel,
Romania**

The 6th UNISCAPE En Route seminar RE-Connections in Landscape will take place between 12-15th of October 2016, organized by "ION MINCU" University of Architecture and Urbanism, Bucharest, Romania, in collaboration with UNISCAPE - European Universities Network for Implementing The European Landscape Convention and Campulung Muscel City Hall.

The first day of the seminar will be held in Bucharest at Frescoes Hall UAUIM, followed by a study trip and a workshop held in Campulung Muscel, the first capital of Romania County.

The target of the seminar consists in the reconsidering of the main issues related to landscape, within a broad vision opened by The European Landscape Convention, Florence, 2000, having in view the concept of landscape as a system of systems where connections and reconnections are essential, in order to assume main landscape qualities.

The topics of the seminar are related to:

1. Ecoplaces
2. Architectural heritage and landscape
3. Sustainable archaeology
4. Memorial landscapes

These topics will be related to the workshop targets, regarding an integrated transdisciplinary approach to increase landscape values in Campulung Muscel, including aspects aiming conservation of traditional, byzantine and neoromanian architectural heritage, reconsidering the Targului river's sites, revitalization within a sustainable approach of the Jidova archeological ruins and revitalization of the public space and of the historical garden belonging to the historical structure of the city and of the historical garden and creation of historical memorial routes in order to reconsider cultural values in Campulung Muscel. From transdisciplinary perspective, the integrated re-connection of these issues intends to create a stable landscape as a system of systems, implying the process of re-search, re-creation, re-integration, re-enhancing of landscape qualities. Re-connection process in landscape targets on the relations established in time between human beings and landscape, his influence on humans behaviour, in chorographic perspective landscape representing repository of human experiences, offering different perception and understanding

levels, in order to find hidden or new connections and to create networks in order to enhance new synergies.
